The Kobra +1 is the latest engineering innovation in our model lineup. The +1 range of paper shredders include three models equipped with straight cut shredding capability and one cross cut model. No matter which model you choose, the unit will come equipped with the Energy Smart® Power System, which allows the unit to draw nearly no power in stand-by mode. The 24 Hour Continuous Duty Motor used in +1 models do not require lengthy cool down periods for efficient operation. This is unlike our competitors who use less reliable, duty cycle motors which stop and need to cool down during normal operation. With capacities of up to 27 sheets, the Kobra +1 has unparalleled performance. All Kobra +1 Models are equipped with front mounted, transparent bin windows to display shredded material level.

**1: Shredding paper**
